

Assignment #3 (Personal)
Course: CSD201
(For in-class students)

Complete the Java code below:

```
class Node
{
    int info;
    Node left,right;
    Node(int x){...}
}

class BSTree
{Node root;
    BSTree() {...}
    void insert(int x) {...}
    void visit(Node p) {...}
    int height(Node p) {...}
    void breadth() {...}
    void preOrder(Node p) {...}
    void inOrder(Node p) {...}
    void postOrder(Node p) {...}
    Node search(int x) {...}
    void deleteByMerging(int x) {...}
    void deleteByCopying(int x) {...}
    void deleteNode(int x){...}
}
```
